**Inferno Credit Solutions - The Future of Credit Repair Management**

ICS recognized the need for a business that sought to help inform people about a better position for tomorrow.

So why the CREDIT INDUSTRY?

CONSIDER THIS...

“With the majority of people experiencing a reduction in the credit scores, there are actually a huge amount of people falling into the ‘bad credit’ group.”

-- John Parker

Inferno Credit Solutions - The Future of Credit Repair Management

# This is actually OPPORTUNITY!!

“ Reports from industry followers suggest that there are 70 million people in America that have a bad credit history and might need professional help to sort it out. At this current time there are very few industries that have as bright a future. ”

-- John Parker

**Inferno Credit Solutions** - The Future of Credit Repair Management

# It makes sense to start your own business!

“Entrepreneurship participation in the bad credit repair market is simply too low at the moment. When you factor in the amount of money that you can potentially make it seems ludicrous to not invest in this sunshine industry.”

**Inferno Credit Solutions** - The Future of Credit Repair Management

**It makes sense to start your own business!**

**“We can only see the general public credit scores becoming lower over the coming years. Investing in an industry as bright as this would certainly bear fruit sooner than later.”**

**Inferno Credit Solutions - The Future of Credit Repair Management**

Therefore...

We are determined to enter  
into the vast potential of the  
credit industry by  
reinventing  
credit  
repair  
management.

# Own Your Business!

Whether you own your own business or not, you probably know there are significant costs for mistakes.

“Mistakes in credit reports cause 29% of Americans’ credit ratings to vary significantly from one agency to another.”

**Inferno Credit Solutions** - The Future of Credit Repair Management

# Own Your Business!

**Businesses lose money every year because of these mistakes. We want to help people rid themselves of these errors and help businesses and individuals reach their financial goals.**

# What is a Credit Score?

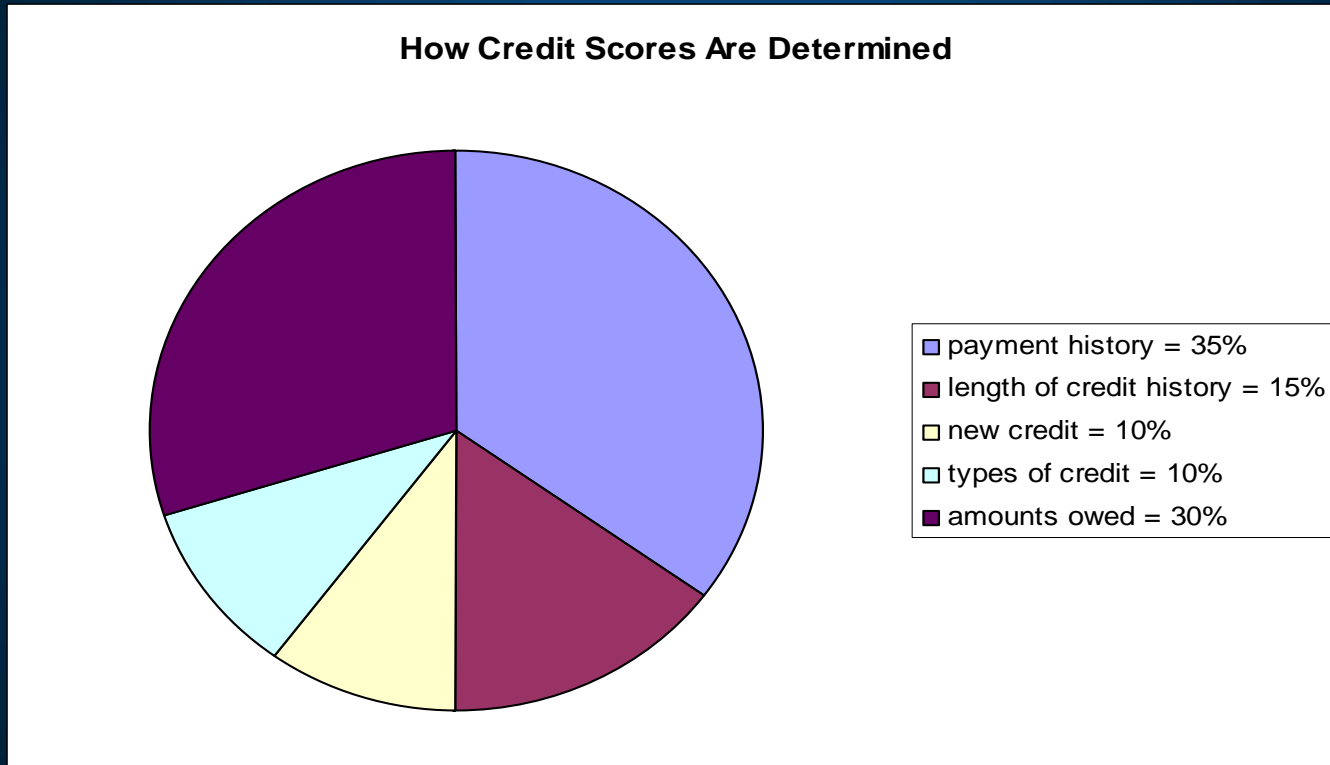

A Credit Score in the US is a number representing the credit worthiness of a person or the likelihood of a person paying his/her debts. The FAIR ISAAC Corporation, known as FICO, created the first scoring system in 1958.
